Principal's Message

The significance of the festival of Dussehra is the victory of the good over evil. It is celebrated as the triumph of Lord Rama over Demon King Ravana. Deepavali, the festival of lights is celebrated on the return of Lord Rama from 14 years of Exile and his victory. One could call this a celebration of life. Good and Truth will always prevail over evil, everything else is temporary.

Concentrating on good thoughts and doing good to others have more benefits than doing evil. Extraordinary things and long lasting changes in the society can only be done by good people. The world is not completely evil because there are few good people who make effort to change their societies. Life becomes easier and better when people concentrate on good deeds.

Gauri Lankesh was well known for advocating the freedom of the press. She always stood for justice. On 5 September she was shot dead by some unidentified men. Her murder was condemned by several people. Protests over her death are taking place all over India. Gauri Lankesh has left indelible imprints on the hearts of several youngsters.

The first term of the academic year in SAPUC has almost come to a closure. The past three months have been very rewarding. Our students have made us proud by their achievements. The resilience and positive attitude shown by the students who have to contend with both studies and extra-curricular is highly appreciable. I wish the very best to all students for the forthcoming mid-term exams. May the festival of lights brighten your lives and bring peace to humankind.

Rev. Fr Melwin Mendonca SJ
