## MESSAGE FROM THE PRINCIPAL

*We use a variety of earth's resources, but not all of them will be around forever. The fuels we use to drive our motor vehicles or the water we use daily are limited in nature and are known as nonrenewable resources. We need to make use of them judiciously and save them for future generations too.*

*Recently several buses were burnt and shops were vandalized in Karnataka due to Cauvery water dispute. We need to condemn such acts of violence. In the middle of the arson and vandalism one man named Shivanna refused to go with the mob. His act of saving the frightened drivers from the storage room and driving them safely in a container wagon to the neighboring state through the frenzy mob reminds us that we need to be humane to all people.*

*We at St Aloysius PU College encourage students to become 'Men' and 'Women' for others in order to peace and harmony. The various programmes the College conducts motivates students to live in brotherhood. Only when there is peace and harmony in our society our country will be politically strong, economically better off and socially united.*
