Principal's Message

“Not all dreamers are winners, but all winners are dreamers. Your dream is the key to your future.” - Mark Gorman

Pre University Education is a launching pad for future possibilities in the life span of a student. Here, at St Aloysius P U College we silhouette our students for two years into responsible individuals that society can be proud of.

I am happy to inform you that this academic year the I and II PUC Science , Commerce and Arts stream has around 3,900 students in total hailing from in and outside the State and from as far as the Middle East.

What attracts students to this 137 year old campus is the all round development that the college focuses on, the committed faculty members and staff, quality infrastructure and the personal attention that it gives each student. Students have enormous opportunities not only to develop in academics but also in extra and co-curricular fields. The college mainly focuses on building character, inspiring minds, inculcating values, character formation and personal excellence.

The class guide and mentoring system has helped students in their formation. The appreciation, correction and relentless work of the staff have played a significant role in the personal progress of each student.

The parents are our collaborators at the tertiary level. We view our parents as equal partners in providing their children with meaningful educational experiences. We hope that you will encourage and appreciate your wards and provide an atmosphere for study at home.

I would also like to remind our students to remain focussed, have a specific intent, prepare a time table, not be pressurized by your peers, visualize your goals, be ready to face challenges and make a difference to the world and to our country like our alumni who have already made our college proud with their representations in various important designations around the world.

I wish you the most fulfilling and rewarding experience at this great institution.

Fr Melwin Mendonca SJ
